

MILLER TO TRAVEL TO THE SOUTH POLE

2012 KSTF Teaching Fellow [Kate Miller](#) has been selected to travel to the Antarctic with Project IceCube in winter 2016. For the last seven years, the [Wisconsin IceCube Particle Astrophysics Center](#) (WIPAC) has partnered with KSTF and [PolarTREC](#) to send high school math and science teachers to the South Pole to work closely with scientists and engineers on the IceCube Neutrino Observatory. Kate teaches physics at Washington-Lee High School in Arlington, Va., and is the seventh KSTF Fellow to be involved with the project.
