

Welcome to a Polar Week Live Event!

Connecting to the Poles!

with Researchers

Jennifer Provencher and Piotr Angiel

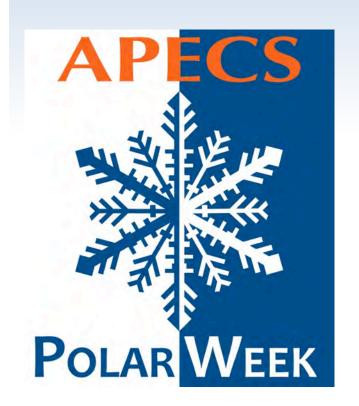

22 March 2012

5am Alaska Daylight Time [6am PDT, 7am MDT, 8am CDT, 9am EDT]

What is Polar Week?

March 18-24th, 2012

Coincides with the spring equinox, one of two times a year when everyone on the planet gets 12 hours of sunlight.

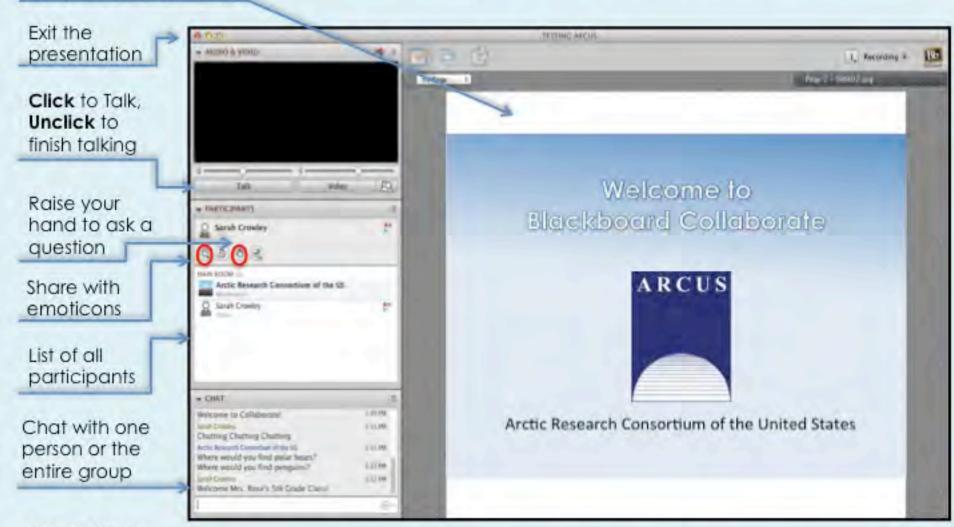

Celebrate Arctic and Antarctic science on a global scale!

Join in the fun of science and learn more about all the activities at:

http://apecs.is/education-outreach/polarweekmarch2012

Slides will be shown here

Please Note:

- Participants using the telephone can mute/unmute by pressing *6 on the phone.
- Today's event will be recorded and archived.

Questions

During the Presentation:

Type your question in the text chat box

At the End of the Presentation:

- Raise your hand with the "hand button".
- PolarTREC staff will call on you.
- Speak loud and clear and directly into the phone to ask your question.

Click on the Talk button to speak. Unclick when you are done.

Participant Introductions

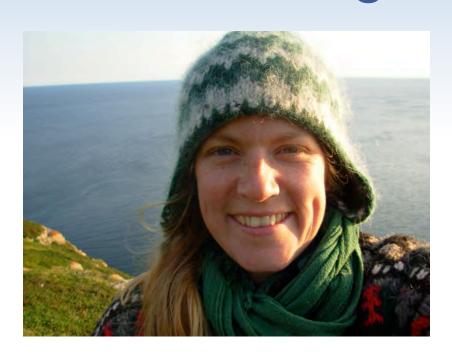

When called, please state your:

- ✓ Name
- ✓ School / Institution
- ✓ The number of students and adults participating with you in the same location

The ANTARCTIC

The ARCTIC

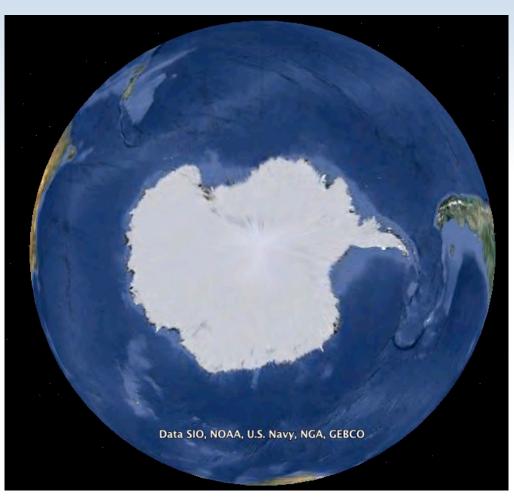

- ocean surround by land
- many countries involved
- free of ice seasonally

The ANTARCTIC

- -land surrounded by ocean
- protected by AntarcticTreaty
- covered in ice most of year

Connecting to the Poles with....

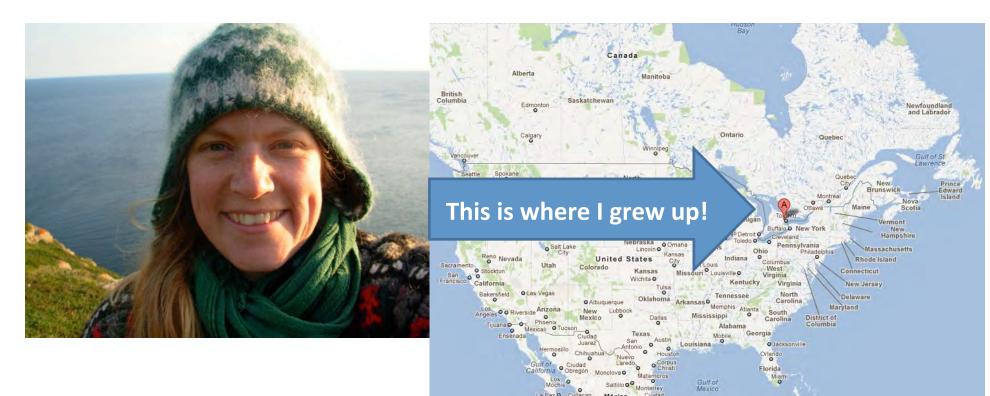

Jennifer Provencher

PhD Student at Carleton University

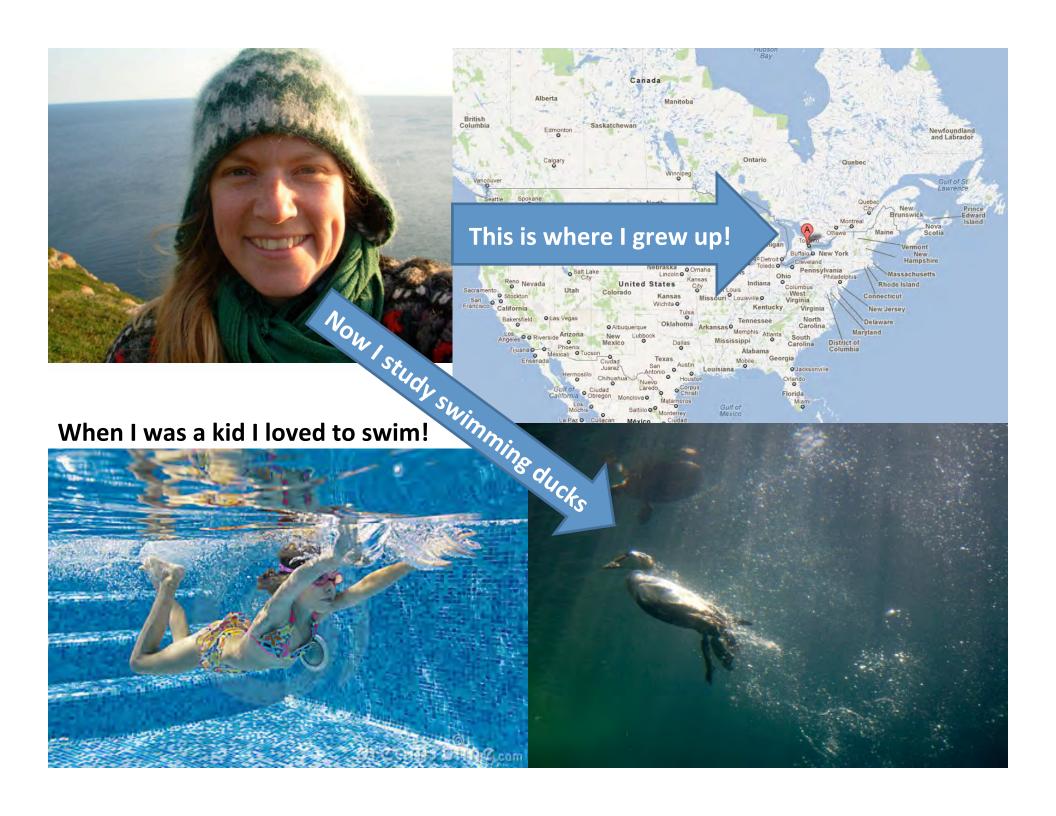

She's been studying in the Arctic since 2007. Thanks to the Canadian International Polar Year!

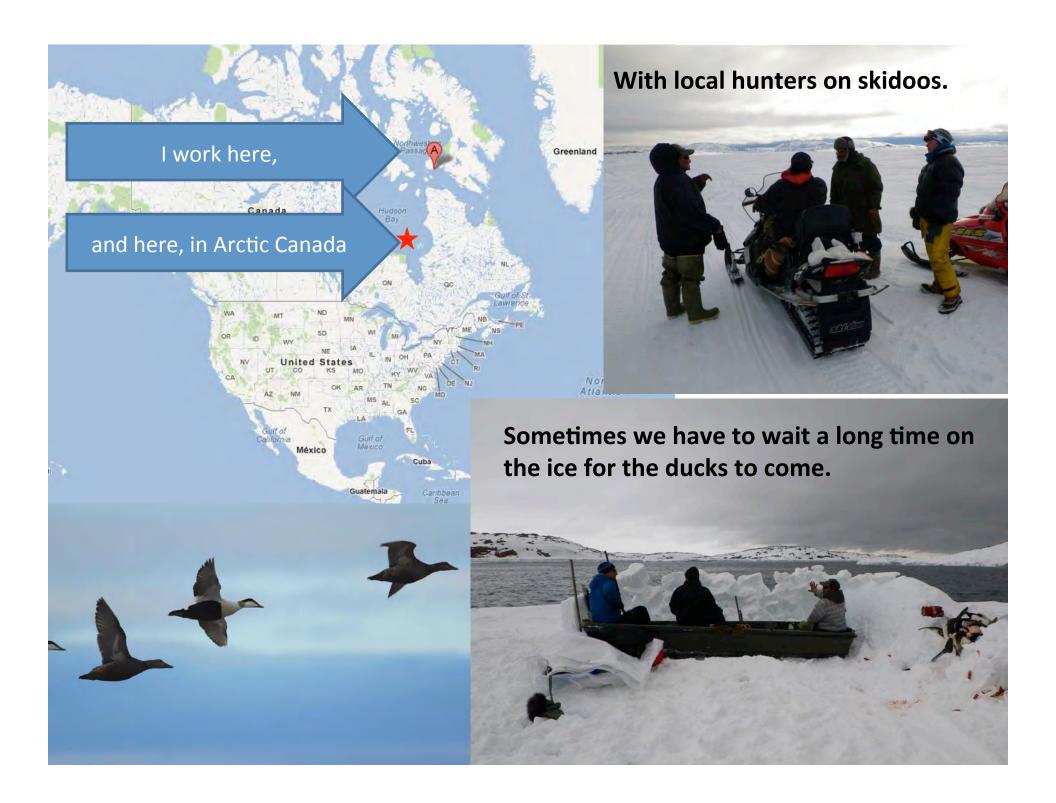

She is interested in how marine birds can be used as indicators of marine environment and ecosystem health.

When I was a kid I loved to swim!

We study boy ducks (the white and black ones) and girls ducks (the brown ones) to see how healthy they are.

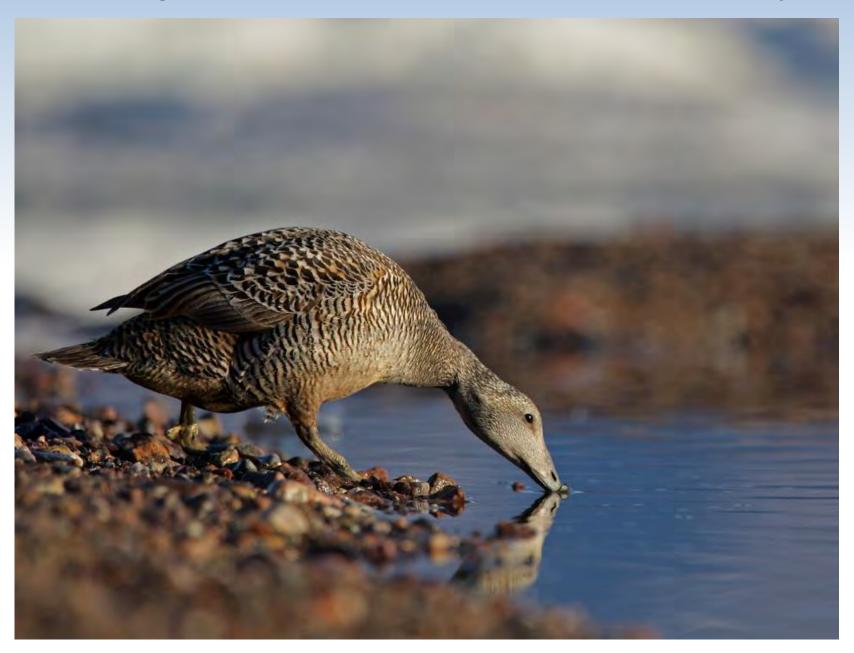

Sometimes we give them bands and tags (duck jewelry) so we can track difference individuals.

The best part of my job is that I get to explore new places, and be outside a lot!

And we get to make sure the ducks are nice and healthy.

Connecting to the Poles with....

Piotr Angiel

I am from Poland

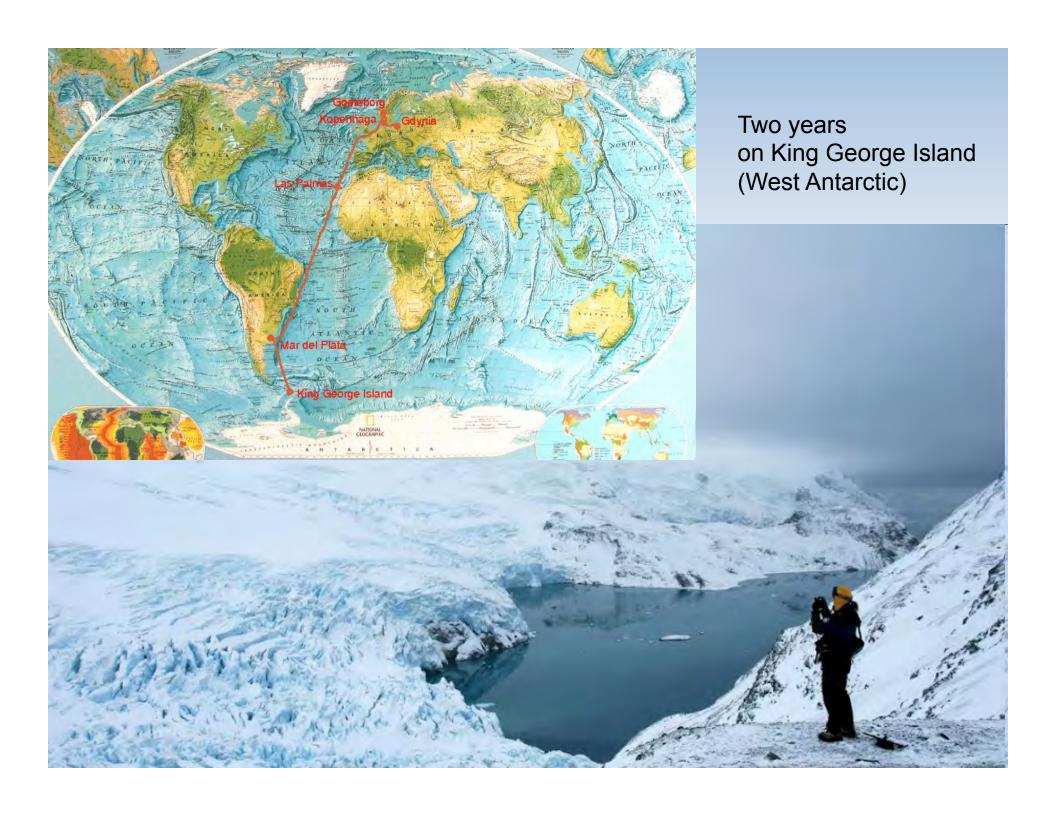

I am a PhD Candidate at University of Western Ontario, Canada

I am a Geographer and Geologist.

Research: I was involved in several projects in Maritime Antarctica where I spent 2 years (including overwinter!).

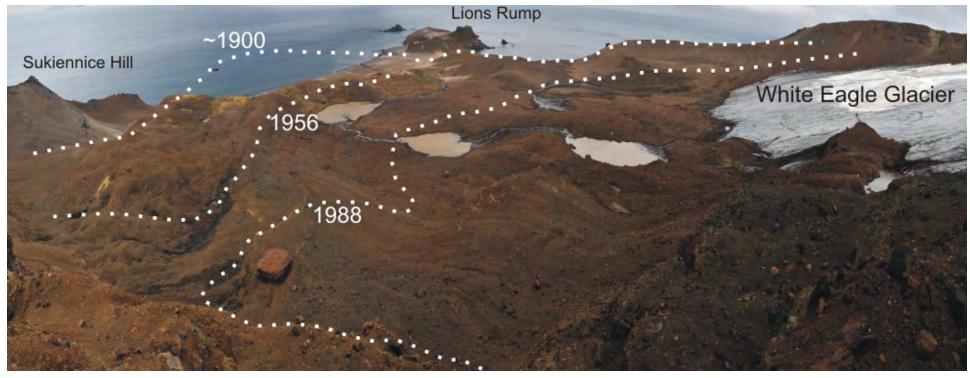

My research focuses on glaciers retreat due to climate warming and its influence on ecosystems.

Climate change influence on krill and penguin populations

Questions
