 Type your question in the text chat box

- Raise hand, if you want to ask your question live and then,
 - Click on the Talk button to speak.
 - Unclick when you are done.

Presentation Outline

- Introductions
- What is ARCUS?
- What is PolarTREC?
- Goals and Project Elements
- Program Benefits
- The Application Process
- If You Are Selected
- If You Are Not Selected
- FAQ's & Answers

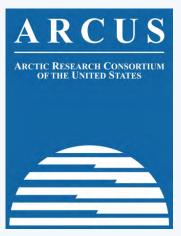

Who is **ARCUS**?

ARCUS (Arctic Research Consortium of the United States) is a not-for-profit corporation consisting of institutions operated for educational, professional, or scientific purposes. ARCUS provides leadership in advancing knowledge and understanding of the Polar Regions though a variety of programs and outreach endeavors.

ARCUS is based in Fairbanks, Alaska and works with primarily arctic scientists around the world to facilitate interdisciplinary collaboration, outreach and education within and outside the science community.

ARCUS website: www.arcus.org

25 Years of Connecting Arctic Research www.arcus.org

TEACHERS AND RESEARCHERS EXPLORING AND COLLABORATING

What is PolarTREC?

PolarTREC (Teachers and Researchers Exploring and Collaborating)

- PolarTREC is a professional development teacher research experience in which primarily teachers and informal educators* are paired with researchers to participate in a 3-6 week polar research experience.
- PolarTREC is not teachers simply observing and reporting science, taking a vacation, or only fulfilling a personal dream to visit the polar regions.
- PolarTREC is administered by Arctic Research Consortium of the United States (ARCUS)

*We will talk about eligibility for 2018-19 later in this presentation.

Goal, Objectives, and Project Elements

Program Goal & Objectives

Our goal is to invigorate polar science education and understanding by bringing educators and polar researchers together.

- To improve Educators' STEM content knowledge of the Polar regions and transfer to their learning setting.
- To increase teachers' knowledge and use of STEM practices with their students in their learning setting.
- To build teachers' science identity.
- To increase students' understanding and engagement in the polar regions and interest in polar-related STEM careers.
- To develop long-term professional relationships between the education and research communities.

The term "teacher" applies to educators in both the formal and informal educational settings.

Program Components

www.polartrec.com

The main components include:

TREC

- 1. hands-on field research experiences that are implemented in the polar regions,
- 2. broadly disseminate teacher/educator experiences to students, professionals, and the public,
- 3. develop a sustainable learning community, and
- 4. provide clear and appropriate measures of project success.

Key Program Activities

Intensive 1-Week Orientation

- Technology Training
- Education/Outreach Planning
- Polar Science
- Safety
- Cohort Team Building

Comprehensive Selection Process

Researchers Make Final Selections

Detailed Logistic Support

Substitute & Other Expenses Covered

Alumni Involvement

Pre\Post Expedition Travel Support

Long-term Access to Resources & Support

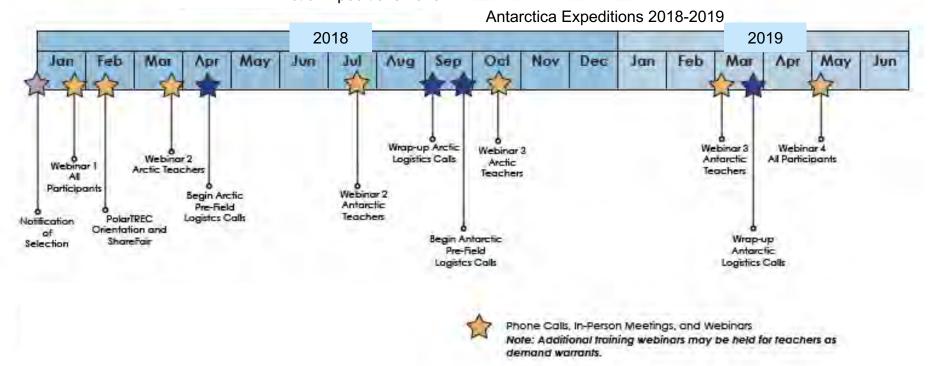

Projected Timeline of Major Program Activities

Pending Funding

PolarTREC Evaluation Activities [See below]

Arctic Expeditions 2018

Note: PolarTREC will offer enrichment/professional development opportunities through out the year which may include of webinars, field courses, and presentations at regional and national conferences. All TBD. TEACHERS AND RESEARCHERS EXPLORING AND COLLABORATING

Teacher Research Experience

- Teacher matched with researchers and travel to locations in the **polar regions**
- Experiences last from 3 to 6 weeks (or MORE!)
- Experience involves intense field work—teachers become members of the team
- Experience involves safety and classroom **training**
- Teachers **communicate** daily with public

Polar Expedition Locations

Approximate locations. Some locations have had several teachers.

×.

Professional Development

- Teachers are **immersed** in scientific content and get experience with the latest scientific equipment
- Teachers and researchers work together to bring the science into the classroom—science that students can connect with
- Teachers **utilize experiences** to develop lessons that meet District requirements and National and/or State standards

TEACHERS AND RESEARCHERS EXPLORING AND COLLABORATING

Classroom & Public Outreach

Outreach supported through the use of technology tools:

- PolarConnect in-field presentations
- Online journals & videos
- Photo albums
- Commenting from the public

AND MORE!

Sustained Community & Support

- **Funding** to help nurture ongoing relationships between teacher and researcher
- Educator Partners where selected participants are matched with another teacher for mentoring and advice
- The **PolarSphere Network** where social media is used to keep alumni connected and collaborating between teachers and researchers
- The **Learning Resources** database, an online collection of polar related lessons and activities
- PolarEducation E-Mail Listserve to share ideas and opportunities
- International Connections to polar focused groups for ongoing collaborations and opportunities

POLAR TREC

Teachers and Researchers Exploring and Collaborating

Program Benefits

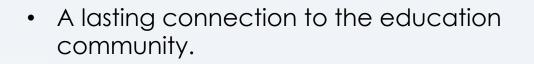

How Teachers Benefit

- Integral part of a science team, engage in actual science with working scientists and acquire an understanding of inquiry science
- Transfer the experience and excitement to students and the public
- Professional rejuvenation, seen and treated like a professional
- Establish a network of education and science professionals
- Gain science content, applied knowledge
- Gain technological skills
- Often cited as life-changing –

confidence, careers, continuing education

What Researchers Get

- A well prepared, enthusiastic, hard-working team member.
- A great amount of "easy" project outreach, often including web, print, TV, and in person outreach and education.
- Personal satisfaction of working with educators and contributing to the improvement of STEM education and scientific literacy.

- Improvements in your ability to teach and communicate your science, and interact with those outside your scientific discipline.
- And much more!

TEACHERS AND I EXPLORING AN EXPLORING AN

Teachers and Researchers Exploring and Collaborating

The Application Process

TEACHERS AND RESEARCHERS EXPLORING AND COLLABORATING

Application Timeline*

Basic Eligibility for 2018-2019

Teacher Eligibility

- U.S. Citizens or permanent residents of the United States or its possessions
- Formal or classroom teachers grades 6-12 (middle school & high school)
- Informal Science Educators w/ primary focus on outreach to middle &/or high school students; and/or professional development to their teachers.
- Any discipline or subject matter accepted (not just science)

Researcher Eligibility

- Primary NSF funded or collaborating w/ NSF funded project *Contact us if this is not the case
- Researchers do not need to be a U.S. Citizen to apply to the program. *Final decisions will be discussed with NSF.
- Research projects that are polar or sub-polar are considered for the program

Matching Process

- October: Approximately 200 Teacher Applications Reviewed Internally; Top 100 applications reviewed by selection committee of teachers, researchers, and others
- Finalist pool of top 40 created by selection committee
- Early November: All applicants notified of application status. Start looking at top applicants, select research projects
- **November:** Selected researchers review approximately 6-8 best matches for their project
- **November:** Researchers and ARCUS conduct approximately 3 teacher interviews per project
- **December:** Researchers, with any needed help from ARCUS, select the teacher they will be working with
- February: Webinar 1: Introduction to PolarTREC and Projects and
- March 24-30, 2018 (tentatively): PolarTREC Orientation in Alaska.

The Application Form

- Fill out the application at <u>www.polartrec.com</u> (both teacher and researcher app)
- It is combination short answer and essay questions
- Some questions may require research and preparation
- You must have an email address to complete the application
- Your answers may not save if you navigate away from the page or close the page
- Use Word version & cut/paste into the online application
- Pre-existing supplement due w/ online application
- If you cannot access the application or have any troubles, please email <u>info@polartrec.com</u> as soon as possible
- Teacher apps due Monday, 2 October 2017 at 5 pm Alaska Daylight Time. Researcher apps also due.

Application Tips!

- Spell-check and proofread!
- Write thorough, but concise answers.
- Take note of word limits for certain questions.
- Be clear about your personal and professional goals, and how this fits into your professional development strategy and career.
- Outline clear ideas about how you will share this experience with your classroom, community, peers, the public, media, etc.
- Provide past examples when possible.
- Read the questions thoroughly, and address all parts.
- Do your homework and look through the website! We provide all teachers with a journal (blog), photo gallery, etc.
- Make sure e-mails from us are coming to your inbox!

Please don't...

- Misspell PolarTREC, Arctic, or Antarctic!
- Just write "I, I, I" and "Me, Me, Me"
- Paraphrase your essay question answers
- Write responses that are too brief or vague
- Submit incomplete answers
- Mail or e-mail us additional documentation, lesson plans, photos, etc.

If you have corrections or changes to your application, you can either resubmit the application or you can send specific instructions with your corrected answer to <u>info@polartrec.com</u> until the application deadline.

If You Are Selected and depending on funding...

Selected Teachers Are Provided: (subject to funding)

- Training for the experience virtually and in-person, including 1 week orientation in Fairbanks, Alaska
- Limited travel support for pre or post field meetings between teacher and research team
- Technological equipment for duration of participation, including laptop, camera, related accessories
- Most outdoor gear and clothing to be comfortable in the field and complete the work, including jacket, boots, etc.
- Substitute teacher expenses, for classroom teachers, during orientation week and expedition if occurs during the school year
- Travel expenses related to the orientation and expedition

Selected Researchers Are Provided: (subject to funding)

- We work with NSF logistics providers to cover all travel to and from the field, meals, outdoor gear, etc.
- ARCUS provides support for teachers where NSF logistics providers or schools do not cover it.
- ARCUS provides teachers with technological equipment, training, ongoing support, and the infrastructure to communicate from the field.
- Researchers, optional personal or project costs you may incur include: your travel to orientation, travel to meet your teacher, pre-field communications costs, materials or books sent to your teacher, etc.

Costs Teachers May Incur:

- Personal apparel and gear not provided, such as long underwear, socks, gloves, toiletries, etc.
- Some medical insurance and/or evacuation insurance if costs are not covered under your insurance
- Personal travel adjacent to the expedition, or travel related to your outreach activities before or after the expedition
- Possibly salary related costs, depending on your school or work and their policies
- PolarTREC teachers **DO NOT** receive a stipend for their participation in the program (this includes informal science educators)

Teacher Expected Time Commitment

- 1 week in Alaska for Orientation likely in late March 2018
- Participation in 3-4 two-hour webinars related to the training
- Participation in 1 or more pre-field logistics phone call or virtual meeting
- Approximately 3-6 weeks in the field, plus associated travel days to and from the site
- Additional personal time for technology training and practice, as needed
- Additional personal research time/reading related to the subject of the expedition, as needed
- Outreach activities before and after the expedition, as you determine
- Completion of PolarTREC program requirements and evaluation components

Researcher Expected Time Commitment

- 8 9 hours of reading applications and selecting a teacher for your team
- Participation in (2) 1 hour webinars related to the program
- Participation in 1 or more pre and post field logistics phone calls or virtual meetings
- Commitment to working with teacher in the field
- Additional time sharing reading related material with the teacher, as needed
- Outreach activities before and after the expedition, as you and teacher determine
- Completion of PolarTREC evaluation components (no more than 1 hour)

I didn't get picked! Now what?

- If funded, apply again in the future!
- Follow an expedition at www.polartrec.com!
- Read about adventures in science in the teacher journals
- Post questions to the journals
- Check out the beautiful photography in the Photo Gallery
- Watch short videos
- Share a "Polar Profile" with your students and explore careers

- Participate in a "PolarConnect" live event from the Arctic or Antarctica
- Contribute to and utilize the online Learning Resources database
- Sign up for the Polar Education E-Mail List
- Become of our International networks and partners – APECS and PEI
- Participate in an online learning community about Polar science education

Frequently Asked Questions

- How are the teachers selected?
- How do topics of research impact selection?
- Do you get to pick the research project or are you assigned to one based on skills and interest?
- How many "areas of interest" need to be high in order to create a competitive application?
- Are there any specific fields in which you would like the teachers to have general/specific knowledge of?
- Are there any skills that would be advantageous in being considered as a candidate?
- Are there any special skills required for teachers to be considered as a candidate?
- Do your teachers generally have any research experience?

EXPEDITIONS

- What type of research might we be doing? (Related: Do you get to pick the research project or are you assigned to one based on skills and interest?)
- What are the dates?

APPLICATIONS

REQUIREMENTS

- What are the expectations of the teachers with regard to your program?
- Are social studies/world history teachers eligible? If yes, any tips for teachers applying from this discipline?

OTHER QUESTIONS

- How many professional development points can be given if selected to partake on the PolarTREC journey?
- What are the dates?
- Will I be able to access [the webinar] after?

Join PolarTREC!

Application Deadline:

Monday, 2 October 2017 – 5PM ALASKA DAYLIGHT TIME
